

## Aerial Work Platform

- As with other powered vehicles, inspect the lift prior to utilizing it. Walk around and ensure there are no leaks, check to ensure all the controls are functioning correctly.
- Never walk under the boom to gain access to the platform.
- Only utilize the lift on level ground.
- Only stand on the platform floor. Never stand or sit on the railing.
- Always look in the direction the machine is moving.
- Do not rest the boom or basket on a steel structure of any kind.
- Wear safety harness and tie-off to the manufacture anchorage point within the platform at all times when you are in the basket. This includes when you are lowered and lowering the basket.
- Ensure that a fire extinguisher is mounted in the basket when performing activities that present a fire hazard such as welding or grinding. Ensure you have a fire watch person below.
- Except in case of emergency, ground controls shall not be operated on an occupied lift (lift occupant shall always be in full control of the lift).
