

## Fall Protection Tie off

- Fall protection is required when working above 6 feet from surface.
- Anchor point must withstand 5000 pounds.
- Workers to use 3-point contact when ascending or descending from ladders.
- Full body harness and double lanyards with double snapping hooks are required.
- Top rails heights must be 42" +/- 3" above the walking working surface.
- Guardrails are not to be used as anchorage for personal fall arrest equipment.
- Fall protection equipment should be inspected prior to use.
- Anchor slings can be wrapped around anchorage of sufficient strength.
- Always maintain 100% tie off so you are protected at all times.
- ZERO tolerance Policy is in effect for Fall Violations.
